Annual Report
2013-2014

St. Thomas High School
Report on the School’s Success Plan, Management and Educational Success Agreement, and Contribution to the School Board’s Strategic Plan
Introduction

In January 2010, the school signed a management and educational success agreement with the school board. The overall objective of the agreement is to improve student success. The management and educational success agreement incorporates five major goals:

- Increased Graduation and Qualification Rate
- Improved Mastery of English and French Language Skills
- Improved Levels of Success and Perseverance for Students with Handicaps, Social Maladjustments or Learning Difficulties
- Promoting Wellness in a Safe and Caring Community
- Increased Enrollment of Students Under 20 Years of Age in Vocational Training

The management and educational success agreement is valid until June 30th, 2015 and is reviewed on a yearly basis. The agreement is closely aligned with the school success plan for 2010-2015. Student success is the force that drives our actions, we believe that the identified pillars of our success plan represent the key areas that will increase student success and ensure the achievement of our management and educational success agreement goals. It is our responsibility to ensure that every student has the opportunity to excel, our success plan combined with our management and educational success agreement provides our road maps to meet that responsibility.

We are pleased to share news of this past year’s (2013-2014) successes. This annual report includes information on our success plan results, management and educational success agreement results as well as the school’s contribution to the school board’s strategic plan. The report shares information about the important work that our school does to foster student success while ensuring a safe and healthy educational environment, and highlights the work and achievements of students and staff. This report is only a tiny snapshot of what happens every single day in our school with our collective mission to provide excellence in education.

**School Mission/Vision**

The St. Thomas High School Success Plan for 2010-2015 is based on the Lester B. Pearson School Board's Strategic Plan entitled "Together We Learn: Partnering for Student Success" and the St.Thomas Educational Project which was reviewed and revised in 2006 and was in the process of being reviewed in 2009. The St.Thomas School Success Plan outlines a clear direction and defines our priorities for the coming five years. At St.Thomas, it is our responsibility to ensure that every student in our school has the opportunity to excel. Our success plan provides a road map to meet that responsibility. It is built on the foundation of work accomplished through our 2006-2009 success plan and ensures that our goals are achievable, our progress is measurable and that we are accountable to those who place their trust in St Thomas High School.

Our success plan has been developed with input from our stakeholders and in accordance with the strategic directions of the Ministry of Education, Leisure & Sports and the four identified pillars of our school board's strategic plan. We believe the objectives and strategies we have chosen represent key areas that will increase the success rate of our students. At St Thomas High School student success is the force that drives all our actions.

**School Vision**

St. Thomas High School provides a caring, safe, and nurturing environment where students strive for success and a commitment to life-long learning. Students participate in a series of programs that provide the very best of educational opportunities according to the individual student’s needs and abilities. Personal safety, social action, personal integration, health and well-being, and intellectual curiosity are foundational elements that the school aims to achieve.

**Mission Statement**

*St. Thomas High School is dedicated to the encouragement of excellence of all students in the intellectual, personal and social domains. The diverse needs of our students will be met in an environment of safety, personal belonging, and mutual respect.*
Goal 1: Increased Graduation and Qualification Rate

School Board Context

The student success rate in terms of certification and qualification remains an important factor. The graph below summarizes the LBPSB graduation and qualification rate for students under the age of twenty over the past eight years. The MELS has given us the challenge of increasing our graduation and qualification rate to 88% by 2020. We have set our 2015 graduation and qualification rate target at 85.5% with 2% of this increase coming from the youth sector and 1% coming from the Continuing Education sector. We have exceeded this target with a graduation and qualification rate of 86.2%. We continue to address the difference in the graduation and qualification rate between boys and girls. As well, all of our elementary schools are working towards increasing their success rate for MELS Elementary End of Cycle III Math exam results.

</tr>
</tbody>
</table>
Level of Accomplishment

- There was significant turnover of staff during the school year, but having strong departmental standards and allowing for teachers to meet and plan, develop common assessments, as well as our mentoring program for new teachers, allowed for continued success.
- Math results continue to be strong and surpassed our target. The CST groups contributed to the overall success, which is encouraging as this class accommodates students who can experience more difficulty in Math.
- We continue to experience significant increases in Science, in both the General and Applied streams.
- The June History results were actually less successful than usual originally, but most of those students went to summer school and passed there, so our June/August results represent a significant increase.
- We have already surpassed our target for a reduction in the number of students who drop out.

Situation Analysis:

- The overall success rate for all MELS exams was 96.4 which is about where it was last year and is significantly higher than the board average. The mentoring program, as well as teacher participation in PDIG’s appears to have contributed to our being able to maintain success despite a high number of teachers on leave or sabbatical.
- Our TLC program, run out of our Resource department, continues to provide remediation for students we identify as possibly at risk of not being successful. This remediation, as well as maintaining smaller ratios in certain classes, as well as very small ratios in Annex classes, appears to be working as the success rates for our non-enriched students is also very good. We have also been implementing reverse integration with students who are pulled out of their classes for remediation or behavioural reasons working with our high-needs students.
- We would like to see more students enrolled in Histoire in Secondary 4 and will continue encouraging them in this direction.
Goal 2: Improved Mastery of English and French Language Skills

School Board Context

The overall aim of Goal 2 from the Ministry of Education Leisure and Sports is to improve the mastery of the French Language. The Lester B. Pearson School Board, as an English school board, has targeted the improvement of both French and English literacy skills. The Board’s goal is not only to graduate students who are bilingual, but who are also biliterate; able to read, speak and write in English and French. As a result, our focus is an emphasis on early intervention to further improve literacy skills. Our systemic efforts must begin at the elementary level and be maintained throughout the secondary year. This will allow for improvement in our success rates for Secondary V Uniform Ministry Examinations in English Language Arts and French, and increase our students’ exposure to French.

<td>No specific number</td>
<td>Increase by 1 each year</td>
<td>6</td>
</tr>
</tbody>
</table>
**Level of Accomplishment:** We have once again surpassed our target in both French reading and writing.

**Situation Analysis:**

We continue to encourage teachers to explore avenues of exposing our students to French aside from the purely academic. This year we:

- Evaluated all the Secondary 1 French and English Immersion students early in the year to identify those in need of remediation and for grouping purposes.
- Renamed our Secondary 1 English Immersion group. They had a smaller ratio in their class and the students were not kept in the same groupings throughout their schedule, but grouped according to their ability in each of their subjects.
- Invited a French Slam Poetry artist to present and involve our Secondary 5 students in a workshop.
- Participated in a Humanitarian Fair at Felix Leclair through their French classes wherein our students got to associate with French speaking students.
- Continued our Francization class for students in need.
Goal 3: Improved Levels of Success and Perseverance for Students with Handicaps, Social Maladjustments or Learning Difficulties

School Board Context

The Lester B. Pearson School Board is proud to be an inclusive school board where students with special needs are integrated into community schools and classrooms. In each school students with special needs are members of the community receiving support services as indicated by an Individualized Education Plan (IEP). Our focus for the next four years is to increase the qualification rate for our students with handicaps, social maladjustments or learning difficulties. We will continue to implement and support a variety of Work Oriented Training Pathway programs and school-based alternative programs which address the needs of our students and lead to qualification. In addition, the School Board team and individual school teams continue to develop individual and small group programs that respond to student needs. These programs are in line with student IEP objectives and enhance their opportunities for student success.

<td></td>
<td>ongoing</td>
<td></td>
</tr>
</tbody>
</table>
Level of Accomplishment:

- All of our Secondary 1 students were given diagnostic testing at the beginning of the year to ascertain grade level and ability. Those below grade level were immediately assigned Learning Centre blocks.
- Most of our AdHoc meetings began with the first student on the agenda’s teachers being invited and all present shared and brainstormed ways to help.
- We continued working with the board Work-Study coordinator, as well as arranging some in-school placements that were set up via our Resource teacher such as working in the cafeteria, recycling, and visiting CFER. Outside placements include Tim Horton’s and Papillon.
- The cycle 1 vice-principal arranged meetings at key points in the year for all teachers of our English Immersion group to discuss strategies.
- We continued with interdisciplinary team meetings with parents of students not expected to graduate to look at alternative pathways.
- Institution of bi-monthly TLC meetings to discuss programs, issues, supports needed for specific students.

Situation Analysis:

- Academically, we have been very successful in targeting at-risk students and helping them succeed in high school leaving exams.
- Our TLC room has escaped the stigma of being considered a location only frequented by poor students, as there is a very good mix of at-risk, high needs, average, and enriched students who make use of the room.
- We need more students considering Work Oriented Pathways and not just Adult Education.
- We need more programs and emphasis on students suffering from stress and anxiety.
Goal 4: Promoting Wellness in a Safe and Caring Community

School Board Context

Student success is greatly determined by the school and community environment. Schools and communities must work hand-in-hand to ensure that our students learn in an environment that is safe, caring, and promotes wellness. All elementary and secondary schools are working towards implementing the Healthy Schools Approach, further developing a culture of pride and respect for our environment, and completing a yearly portrait of the school climate in order to continue to prioritize interventions in line with a safe, secure, healthy, and welcoming environment.

The Secondary School Climate Portrait is developed through the completion of two surveys: the “Safe and Caring Schools Survey” completed with staff and the “Tell Them From Me Survey” completed by secondary school students twice yearly. The secondary school student survey provides 33 indicators based upon the most recent research on school and classroom effectiveness. This year’s report provides highlights based on data from 10,499 students in 13 schools.

School Results

Level of Accomplishment:

Results from the St. Thomas Tell Them From Me Bullying and School Safety Report indicate that the percentage of students identifying as victims of bullying sits at 11% which is well below the Canadian Average of 23% for Secondary Schools. Of these students, most indicate they experienced Verbal or Social Conflict at school, while Physical Conflict and Cyber Bullying were identified far less frequently. Students identify break periods (30%) and after school (26%) as the most common times during the day when they encounter conflict with peers. All incidents of violence, aggression or bullying were satisfactorily resolved at the school level.

Prevalence of bullying at St. Thomas

Of the reported cases all were resolved satisfactorily at the school level.

Future Directions:

- We continue to have as many activities planned for our cycle 1 students as possible during the lunch hours, considering the restraints of having very little space available. Open gym, study hall, and library are all safe places to be, as well as the cafeteria.
- Along with the lunch supervisor, there is now a teacher duty outdoors at all cycle one lunches.
- 4/6 days, there is now a cycle 2 Leadership class scheduled during cycle 1 lunch. These classes have students rotate into the cafeteria and they are responsible for organizing activities, engaging shy or isolated students, and organizing games such as chess tournaments.
- The socio-community police officers visited all cycle 1 classes to explain the legal definitions of bullying and intimidation, both on and off-line.
- Our Secondary 1 students had a theatrical presentation by the Geordie Theatre company entitled Shared Account which challenged them to critically reflect on bullying in school and on-line.
**Goal 5: Increased Enrollment of Students Under 20 Years of Age in Vocational Training**

**School Board Context**

The Vocational Education pathway continues to be a growing choice towards graduation for students under 20 years of age as well as being a priority for the Ministry of Education Leisure and Sports. Our Vocational Education Centres provide numerous training programs that lead directly to employability and/or to a career.

The graph below indicates that the Vocational Training sector’s contribution to the overall school board graduation rate has increased over the past four years. The vast majority of these students enter without interrupting their studies and with a diploma or qualification. To continue to be successful in this area, our priority is to promote vocational training programs as viable and exciting options towards certification. We feel that by attracting more students to these programs we can improve the opportunities for success of our students.

**New Registrations Vocational Training Sector for Students Under 20 Years of Age**
## School Results

### Goal 5: Increased Enrollment of Students Under 20 Years of Age in Vocational Training

</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>The number of initiatives that promote vocational education</td>
<td>0</td>
<td>Increase 1 per year</td>
<td>4</td>
</tr>
</tbody>
</table>

### Level of Accomplishment:

- We have invited the board’s Voc./Ed transitional person to meet with several students.
- At our grade/level options assemblies we have included a section on Vocational Education to expose students to the possibility of going in that direction.
- We continued with Career Day, Take Your Child to Work Day and the Tech/Voc Roadshow.
- Our POP and Entrepreneurship options still have considerable content directed towards Vocational Education as an option.

### Situation Analysis:

- We still have a very small percentage of our students opting for Vocational Training but continue to present the path to students less inclined to choose CEGEP.
